Mr. Teller called attention to the fact

and addressed the Senate,

that his resolution was a paraphrace of the Cuban plank of the Republican national platform in 1886. He was satisfied that it would be proper and right to pass such a resolution, and he quoted a number of precedents for such action by the Senate. He found a precedent for it in the resolu-tion offered in the House of Representativ's by Mr. Clay of Kentucky, in 1831, in the interest of the South American Republics and in many subsequent resolutions of a smillar character. If this resolution was objectionable to the Senate, he thought any resolution would be objectionable. Such an intervention as he suggested could not be regarded as a hostile or unfriendly act.

He said it was argued that the Boers

were not struggling for liberty, but were simply in rebellion against the British Em-pire, which claimed dominion over them. He regarded this as a legging of the question unworthy of serious consideration. He maintained that Great Britain had no jus-iffication for the ciaims made upon the Boers and the South African Republics. Mr. Teller paid a high tribute to the Boers as a people, describing them as a "kindly, brave, wise and Christian poo-
